

Project Midpoint Demo Specs

Proficiency

- Clear and concise written summary of current status
- Schematics of all breadboarded circuits
- Block diagram of system components and the interfaces between them
- Hardware demo functioning (potentially with some minor bugs)
- More than 25% of the way to the final deliverable
- Clear description of microcontroller routines
- All external parts ordered

Excellence

- All interfaces in the block diagram defined (e.g., SPI, I2C, GPIO)
- Hardware demo functioning well
- Writing is well organized
- Solid grammar or spelling issues (no more than a few minor errors which do not detract from the point).
- Completed riskiest element of the project
- More than 50% of the way to the final deliverable
